

AMENDMENT UNDER 37 C.F.R. §1.111
Application Number: 10/727,493

Our Ref: Q78867
Art Unit: 3762

Please delete the present Abstract of the Disclosure.

Please add the following new Abstract of the Disclosure:

A plurality of electrodes are adapted to be attached on a living body. An electric pulse is output through the electrodes as an electric stimulation to the living body. An analyzer is operable to detect a waveform of the electric pulse and to analyze a parameter of the waveform. A display displays the parameter together with one of the waveform and a model waveform which is an invariable waveform representative of the electric pulse.
